

Automated Pre-Roll Machine

•Output	Dependent on strain type and fill weight
•Accuracy	Up to 0.04 Gram variance
•Practical Size	2MM (1-5MM Range)
•Cone Size	Element Cone:84/28TIP Element Cone:109/26TIP Raw :109/26TIP KingSize
•Elment Cone:84/28TIP	Finished Height 63-65mm Finished Weight 0.7-0.9gram
•Elment Cone:109/26TIP	Finished Height 95-98mm Finished Weight 1.5gram
•Raw :109/26TIP KingSize	Finished Height 95-98mm Finished Weight 1.5gram
•Dutch Fold	Yes
•Twist Mode	No
•Material Filling Hopper	3
•Weight Check System	Integral
•Manpower Replacement	6-8
•Power Requirements	208-240V 50/60Hz 4000Watt
•Pressurized Air Requirements	Come with Air Compressor 6400Watt 220VAC 50/60Hz USA Plug. Capacity:160Liter @87psi
•Gross Weight	700Kgs
•Pre Roll Machine Unit Size:	1150*1120*1650mm
•Grinder	Optional.220VAC 50Hz Single Phase 3000Watt
